- **High Dusting:** Clean vents, light fixtures, and areas not reachable during daily cleaning.
- **Furniture & Upholstery:** Deep clean upholstered chairs and sofas.
- **Window Cleaning:** Clean windows (inside and outside where accessible).

---

5. Health and Safety Considerations

- **Chemical Handling:** Follow all safety instructions for the use of cleaning chemicals. Never mix different chemicals together. Use only in well-ventilated areas.
- KEEP ALL CHEMICALS LABELED AND STORED WITH THE LABEL FACING OUT.
- **Slips and Falls:** Place **caution signs** when mopping or when floors are wet.
- **Injury Reporting:** Report any workplace injuries or incidents immediately to a supervisor.
- USE NEUTRAL FLOOR CLEANER
- Use the appropriate chemical for each place/ e.g windows/wood/ stainless steel/porcelain/carpet/VCT floors. Kitchen floors/Office floors/ hospital floors, etc.

---

6. Quality Control

- **Random Inspections:** Supervisors will conduct periodic inspections to ensure the quality of cleaning meets standards.
- **Client Feedback:** Record and address any client complaints or requests promptly.
- **Continuous Improvement:** Staff should participate in regular training and updates on new cleaning methods and safety practices.
- Pay attention to DETAILS, spot what needs to be done.
- Always leave the place nice, clean and organized.
- **KEEP THE STORAGE/MOP AREA/SINK ALWAYS CLEAN AND ORGANIZED**. All chemicals need to be in order, labeled and in a safe designated place.
- REPORT your work hours. Report when the work is done and keep your records updated

7. General Company Policy

1. Punctuality and Professionalism

- Be on time for all shifts and tasks.
- Maintain respect and responsibility in all interactions with colleagues, supervisors, and clients.

2. Company Values & Workplace Respect

- FPS Cleaning Services is a multicultural company, and we value and respect the diversity of our workforce. Discrimination, harassment, or disrespectful behavior based on an individual's background or personal characteristics will not be tolerated. All employees are expected to treat one another with dignity, professionalism, and respect at all times.

3. Compliance with Procedures

- Follow all Standard Operating Procedures (SOP) outlined in this document and any additional instructions from your supervisor or client.
- Teamwork is essential—work collaboratively with your colleagues to achieve shared goals.

4. Dress Code and Personal Protective Equipment (PPE)

- Adhere to the dress code and wear required Personal Protective Equipment (PPE) at all times.
- For safety reasons, refrain from wearing earbuds, hats, or jewelry while working.
- Personal hygiene and

5. Responsible Phone Use

- Use your phone only for reporting or emergencies. Avoid unnecessary distractions during work hours.

6. Equipment and Tool Use

- Follow the color-coded procedures to ensure that tools and equipment are used appropriately on surfaces and floors. Avoid cross-contamination.

7. Importance of Cleaning and Sanitation

- Understand the purpose and process of cleaning and sanitation. Our responsibility is to leave spaces clean and sanitized according to the highest standards.

8. Personal Conduct and Integrity

- Do not take or eat anything that does not belong to you. Maintain professional integrity at all times.

9. Monitoring and Feedback

- Be aware that work areas may be monitored by cameras.
- Listen to feedback or complaints and take corrective action when necessary.

10. Quality and Accountability

- Ensure the highest quality of work in the first instance—correcting mistakes later is costly and inefficient.
- Complete all required paperwork and report any issues that arise.

11. Child Safety and Workplace Restrictions

- Children are not allowed at the workplace, nor should they be left unattended in vehicles during work hours. This is strictly prohibited.

12. Scheduling and Time Management

- Follow your assigned schedule. Do not change days or hours without prior notice, as clients expect adherence to agreed-upon timelines.
- Avoid procrastinating—complete your cleaning tasks throughout the week (Monday–Saturday), rather than leaving them for the last minute.

13. Supplies Management

- Order supplies before they run out to avoid disruptions in work.
- Check the communication logbook at the start of every shift for updates or instructions.

14. Reporting and Documentation

- Submit your work hours regularly, including the date, time, and services performed.

15. Chemical Use and Safety

- Use chemicals appropriately—not all areas require bleach; it is primarily for bathrooms and toilets.
- Follow manufacturer recommendations for proper dilution of cleaning solutions.
- Avoid over-wetting floors and ensure they are dry before replacing rugs or other items.

16. Final Reminders

- Plan ahead for supplies, deadlines, and quality to ensure smooth and efficient operations.
- **GET THINGS DONE** with Respect, Good Communication and Job Well Done.

8. Van Use Policy

1. **Keep the Van Clean and Organized**
    - Ensure the van is **clean and free of clutter** at all times.
    - **Do not leave dirty mops, rags, or trash** inside the vehicle.
    - **Avoid eating in the van** to maintain cleanliness.
2. **Pre-Trip Vehicle Check**
    - **Inspect the van** before driving, including:
        - Mileage
        - Dashboard indicators
        - Fuel levels
        - Tire condition
    - **Prepare the van** for each task, ensuring it is equipped and ready for the day's work.
3. **Documentation**
    - Ensure all necessary **paperwork is signed** before using the van.
4. **Walkthrough Inspections**
    - Perform a **walkthrough inspection before and after each use** to check for any issues or damages.
5. **Return the Keys and Park Properly**
    - Always **return the keys** after use.
    - **Park the van in the correct designated spot** when finished.
6. **Van Identification**
    - Be aware of the **van's make, model, and identification number** for proper documentation and tracking.
7. **Work-Only Usage**
    - All vans are equipped with a tracking system and must be used **exclusively for work-related purposes**.
8. **Responsibility**
    - You are **responsible for the vehicle** while using it.
    - Ensure the van is **properly prepared before use** and left in **ready condition for the next user**.

9. Equipment Use Policy

1. **Pre-Use Preparation**
    - Ensure all machinery is **fit for purpose** and ready for use.
    - **Inspect and organize equipment** for each task ahead of time, making sure it is appropriate for the specific job.
2. **Proper Usage**
    - Verify the **correct usage guidelines** for each piece of equipment before starting a task.
    - **Check the equipment's functionality** before, during, and after use, and report any damages or malfunctions immediately.
3. **Safety Checks**
    - **Check battery levels** and ensure all equipment is properly charged.
    - **Inspect cables and connections** to confirm they are in safe working condition.
    - **Use the appropriate Personal Protective Equipment (PPE)** to ensure safety during equipment operation.
4. **Storage and Transportation**
    - **Store equipment securely** in the assigned van for the task, ensuring safe transport to the job site.
    - After use, **clean the equipment, check batteries**, and store it in the **designated area** to ensure long-term use and safety.
5. **Maintenance and Reporting**
    - Regularly check and maintain equipment to **prevent unnecessary wear and tear**.
    - Report any issues or needed repairs **immediately** to avoid downtime and ensure continuous safe use.

10. Cleaning Supply Usage and Ordering Policy

Purpose:
To establish guidelines for the effective use, management, and ordering of cleaning supplies to ensure the highest standards of cleanliness and sanitation.

---

1. Authorized Users

- Only designated cleaning staff and supervisors are authorized to access and use cleaning supplies.
- Each authorized user must undergo training on the proper use and handling of cleaning products.

2. Usage Guidelines

- **Inventory Management:**
  - Conduct regular inventory checks to monitor the usage and availability of cleaning supplies.
  - Maintain a log of all cleaning supplies used, including the quantity and purpose, to track consumption.
- **Proper Handling:**
  - Always follow manufacturer instructions for each cleaning product, including dilution ratios, application methods, and safety precautions.
  - Use Personal Protective Equipment (PPE) as required when handling chemicals (e.g., gloves, goggles, masks).
  - Do not leave or use any unlabeled supplies. All chemicals must be properly labeled to ensure safety compliance."
- **Storage:**
  - Store cleaning supplies in a designated area, keeping them organized and labeled clearly.
  - Ensure that all chemicals are stored safely, out of reach of unauthorized personnel, and in compliance with safety regulations.

3. Ordering Procedures

- **Reordering Supplies:**
  - When supplies reach a predetermined minimum level, the authorized user must initiate the reorder process.
  - Complete the cleaning supply order form (see attached template) and submit it to the supervisor for approval.
- **Supplier Selection:**

    - Only use approved suppliers for ordering cleaning supplies to ensure consistency in quality and pricing.
    - Maintain a list of preferred suppliers with contact information for ease of ordering.
- **Order Tracking:**
    - Keep a record of all orders placed, including order dates, quantities, and delivery dates.
    - Confirm receipt of all orders upon delivery, checking for accuracy and quality.

4. Reporting Issues

- If supplies are damaged, expired, or if any quality issues arise, report them to the supervisor immediately.
- Users should also report any discrepancies in the quantity received versus what was ordered.

5. Training and Communication

- Regularly train staff on new products and updates to the ordering process.
- Hold periodic meetings to discuss inventory levels, upcoming needs, and any issues related to cleaning supplies.

6. Compliance

- Adhere to all safety regulations and company policies regarding the use and storage of cleaning supplies.
- Non-compliance with this policy may result in disciplinary action.
